PREFACE

PHOTOGRAPHIC INTERPRETATION BRIEFS, CUBA

A series of Photographic Interpretation Briefs will be published by NPIC, as a supplement to the [REDACTED] IPIRs, on all active COMOR and other targets of significant intelligence nature in Cuba.

25X1A

The Briefs are designed as a series of installations sheets and may be collated in Handbook form. Locator maps of each major COMOR target category as well as a map outlining the provinces and the military districts occupied by the three Cuban Armies (West, Central and East) are also provided. COMOR target category separator sheets are provided, as appropriate.

Each Brief provides a basic description of the target and an annotated photograph of recent date, and will be published and disseminated as they are completed. Each Brief will be maintained as major changes in target description or status occurs.

All dimensions are considered approximate and all buildings are single story unless otherwise designated.

Each Brief is identified by a unique installation number. For example: CU/01/001; CU is the standard country designator for Cuba; 01 designates the province in which the installation lies, Pinar del Rio Province; and 001 designates the first installation reported in the province, Pinar del Rio Military Camp. The second reported installation within that province is designated CU/01/002 and continues chronologically within individual provinces.

Reference should be made to the Province and Military District map key for the numerical designators for each province.
